MATERIALS AND SYSTEMS FOR INTERIORS

Your competent partner for ship and rail solutions.

THE COMPANY

Expertise since 1969 - Numerous successfully implemented projects show our decades of experience as internationally operating system supplier in the railway industry and shipbuilding business. Thanks to many years of partnership with our customers, we continue to take on new challenges with our Germany-wide production sites.

SYSTEM SOLUTIONS

We supply special components ready-to-install suitable for

- Flooring Panels
- Heating Floors
- Ceiling Elements
- Partition Walls
- Wall Cladding
- Air Ducts
- Interiors
- Tables
- Formed Components

CONCEPTION

We accompany your projects from concept to final completion. We support you in the optimization of structural requirements as well as the implementation of legal regulations, for example fire protection and sound insulation.

As your reliable partner, we implement mayor products of the highest quality in accordance to industry standard.

PRODUCTION

Through years of practice, we guarantee the professional execution with conformation to the approval of

- Air-Conditioning including Control Units
- Floor Elements with Electric Components
- CAD/CNC
- Bonding Processes acc. DIN 6701-2 class A1
- Surface Claddings and Paint Works
- PU-Edges

MATERIALS

Can be combined with each other as

- Composite
- Sandwich Variations
- Lightweight Panels
- Sound Absorbing Panels
- Non Combustible Fire Protection Panels
- light
- sound absorbing
- non combustible
- natural
- certified
- maintainance-friendly
- hygienic

COMPETENCE

Our dedicated employees apply their knowledge and creativity to transform individual ideas into practical solutions.

Technical know-how, high-precision craftsmanship and solid project management are our principles.

Quality is no coincidence: Our in-house test laboratory takes care of the mechanical testing of our products in accordance with established standards and conditions. External tests performed by accredited testing laboratories add ideally to our testing possibilities.

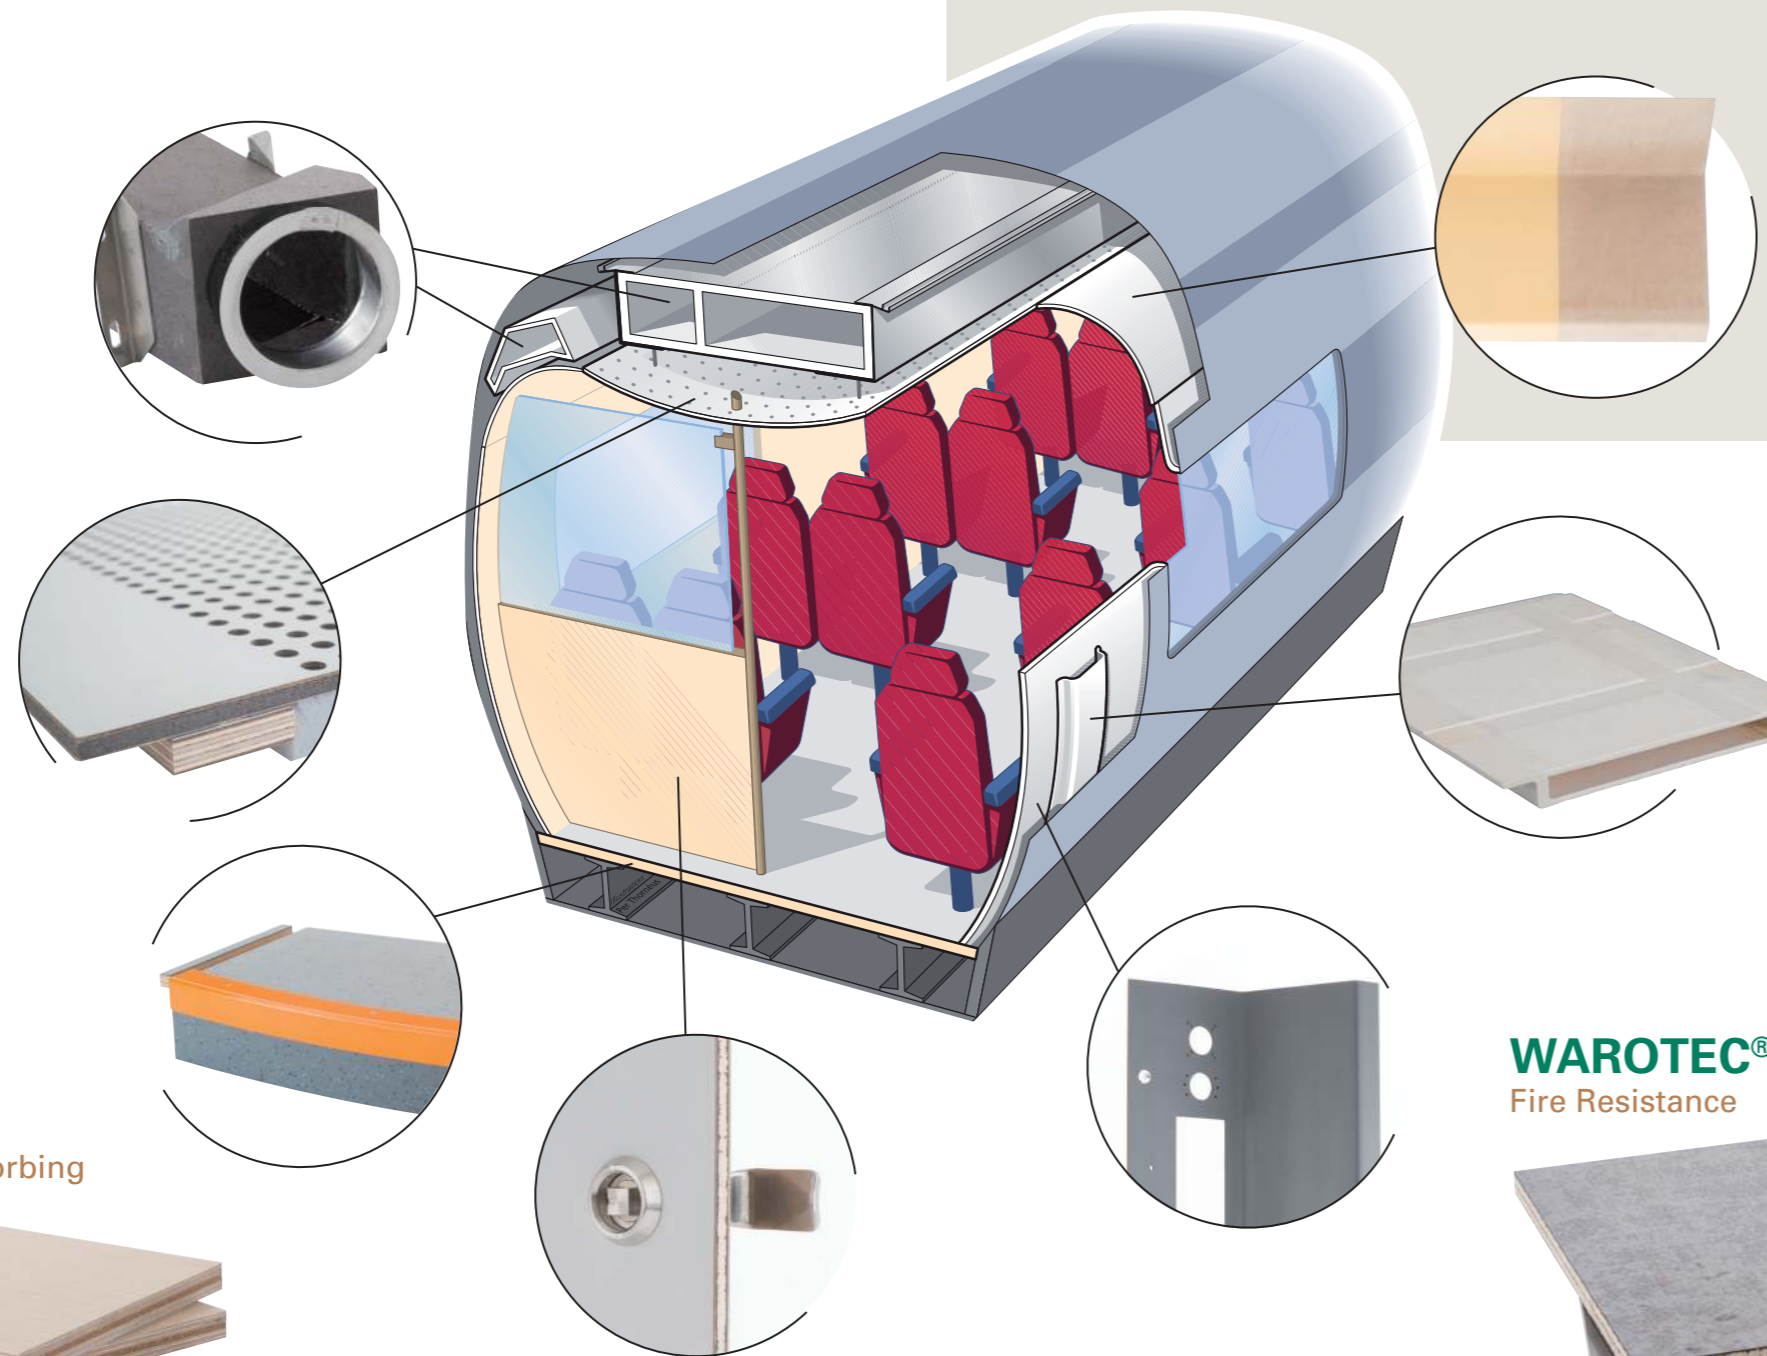

BaryVam®
Sound Brake

JELMO®
Fire Protection

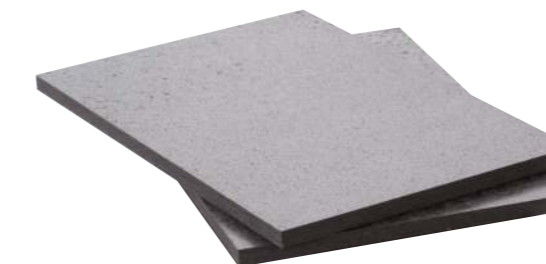

POLYVAN®
light, natural, sound absorbing

WARO® foam NC
Lightweight, non combustible

WARO® foam Classic
Lightweight, fire retardant

WAROTEC® B-15
Fire Resistance

CERTIFICATES

EN ISO 9001

Adhesive Certification DIN 6701-2

Q1 Supplier of Deutsche Bahn

CL 4 Welding Approval DIN EN 15085-2
